

8/9/08

***Definitely a better net than the last (many) weekends, but still not exactly overwhelming response. I'll keep watching it, though.***

***Thanks for tuning in,***

***73s***

***Ron, N7TAW***

WB7SDX, Gary in Vancouver, WA at 360-694-2094 or e-mail: *callsigngary@comcast.net*

Want: Speaker mic that will work on the Kenwood TH-D7g

Want: looking for any other accessories for the same HT

Free: Gary has an older 'Ringo' style base vertical antenna originally for 11m, but should make a good 10m, etc. antenna. \$free for pickup

WB7AYC, Fred in Lebanon, OR at 541-258-7453

Sell: Rohn 25 BTC-25 tower base plate \$35

Sell: Set of guy-rings Rohn 25 \$50

Sell: House Bracket for Rohn 25 or 45, 36" standoff \$75

Sell: Set of Tourque arms for Rohn towers \$35

K6STX, Dan in Keizer, OR at 503-393-5487

Want: Old tube-type radios for restoration. Especially like Hallicrafters, Hammarlund, etc., but will consider any.

K7AZW, Lee in Roseburg, OR at 541-679-9338

Sell: Hygain AV640 eight band base vertical antenna with copy of manual \$200

WO7Z, Tom in Aumsville, OR at 503-749-2041

Sell: Collins station: 75A3 receiver in excellent condition, 32V2 transmitter in excellent condition with manuals, all working, asking \$1500 for the set, will entertain trades and part trades like certain Icom HF rigs.

N7TAW, Ron in Boring, OR at 503-663-1732, or e-mail *callsign@nwahms.com*

Want: Small HF transceiver in the \$150 range, but tell me what you have. I'm not looking for a collector's item here, this will be used portable, and probably get knocked around a bit.

Sell: Have two, new, never used computers, but they've been sitting here for over a year, so they aren't the 'latest and greatest', but would be a good machine for someone that wanted to get onto the internet and such. I believe they are Intel Celeron systems in the 2.0 to 2.4GHz range (I'll be happy to check before you buy). I'm open to trades, offers, what have you.

Want: Power cord or plug to work with kenwood TR-9130. This is the two-pin plug

with the screw-on shell.

K7MJB, Mike in Salem, OR at 503-371-7510 or e-mail: *callsign@pcez.com*

Want: 200 feet of stranded 10 or 12ga wire

Want: 500 ohm resistor rated to 600W or so

KA7DGU, Jerry in Newberg, OR at 503-538-8685

Want: Element clip (that holds the element to the boom) for a Cushcraft antenna.

Want: Motorola Mitrec mobile rigs, any band, but would especially like to find one already set up on the 6m ham band.

WN7X, Larry in Dayton, OR at 503-864-2895

Sell: Parts to build up a 1200W HF solid state linear amplifier. Can also be seperated into two 600W amplifiers—have the splitter/combiner circuitry. You'd just have to build an input circuit, filtering, and a power supply. \$50/section, or \$75 for the whole project.

Sell: Icom IC-211 2m multimode transceiver that needs work. Comes with a complete service manual (much better than an 'average' manual). \$50/firm

Sell: Motorola Maxtrac and Maxtrac 300 commercial mobile rigs. Will program on 6m with PL tones, etc. Have several that work, have some brackets, etc. \$make offer
